Four Major Departments

The four major departments are arranged in the following order:--

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business Section, which embraces a list of the names and addresses of all business and professional concerns of the city, arranged in alphabetical order under appropriate headings--a catalog of all the activities of the city. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like South Bend, the necessity of having this kind of information up - to - date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This Directory aims to show the name, marital status, occupation and address of each adult resident of South Bend and the name, official personnel, nature and address of each firm and corporation in the city.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers; the names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner - occupied homes, the listing of telephone numbers, new householder symbols and Zip Code numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY, is the fourth major department, printed on blue paper.

Municipal Publicity

The City Directory reflects the achievements and ambitions of the city, depicting in unibased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. The publishers have placed copies of this issue of the City Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of South Bend.

The South Bend Directory Library

Through the courtesy of the publishers of the South Bend City Directory, a Directory Library is maintained in the offices of the South Bend - Mishawaka Area Chamber of Commerce, Inc., for free reference by the general public. This is one of many Directory Libraries installed in cities and towns throughout the United States and Canada through the courtesy of your Publisher.

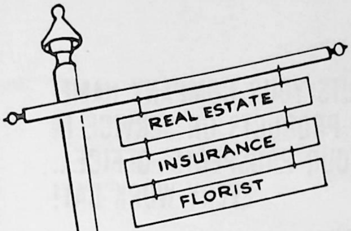
History and Development

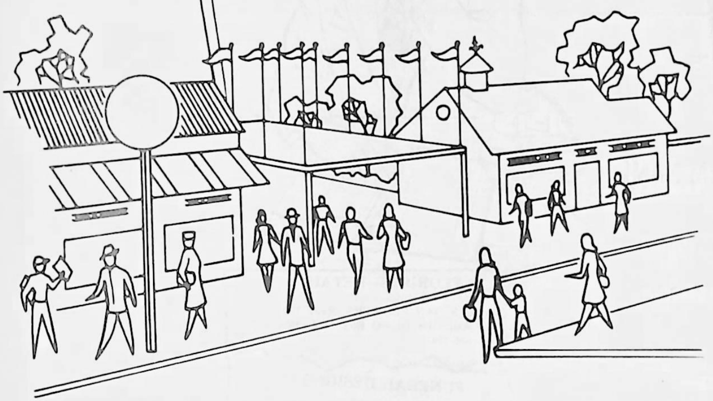
South Bend and environs occupy land which was the scene of dramatic events in the romantic history of America's earliest westward expansion. Here, in December 1679, the intrepid French explorer, Robert Rene Cavalier Sieur de la Salle landed his party on the banks of the St. Joseph River. He made that perilous journey by water up the St. Lawrence, through the Great Lakes, by portage across the divide into tributaries of the "Father of Waters," the Mississippi. LaSalle's portage across the divide in 1679 took him across what is now Riverview Cemetery, through the kingdom of the Miami Indians to the Kankakee River.

Two years later, on this same site under the spreading branches of a great oak tree, LaSalle held his history – making council with the Indian Chiefs, leading to the Miami treaties, Council Oak, a grizzled veteran of those centuries, still stands in Highland Cemetery, a magnificent mememto to days of courage and adventure. These interesting and romantic sites are appropriately marked by a monument and bronze tablet.



In 1823, nearly a century and a half later, Alexis Coquillard founded a fur trading post on the banks of the St. Joseph. This development, a short distance south of the LaSalle portage landing, was to become the modern metropolis of South Bend. At that time, this was still Indian territory, although Pierre Navarre, the first white settler, had arrived three years before. His cabin stood on the north side of the river, near what is now the Michigan Street bridge. The name of the settlement was originally Big St. Joseph Station. This was reduced to St. Joseph in 1827 and renamed Southold two years later. The final change came in 1830 when the post office department officially designated the settlement as South Bend as fitting its site on the south bend of the picturesque St. Joseph River.

In 1842, Very Rev. Edward Sorin, C.S.C. and six Catholic brothers, held a council with the Indians after which was established the University of Notre Dame. In 1844 the Mother House of the Sisters of the Holy Cross and St. Mary's college was opened at Bertrand, Michigan. In 1855 both establishments were moved to what is now Notre Dame, Indiana, just opposite the University of Notre Dame.



Today Saint Mary's College is one of the nation's leading schools for young women, and the Saint Mary's Convent is known the world over.

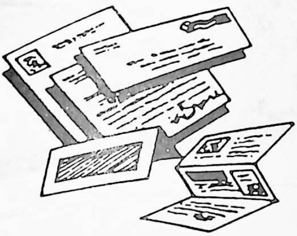
Out of Sight!

Out of Mind!

Out of Business!



The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

▼

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.
